PROFESSIONAL SUMMARY

IT Support Specialist and Computer Technician with 7+ years of experience across technical support, hardware repair, basic networking, and customer-facing service roles, including supervising daily operations for a high-traffic computer café and providing on-site and remote support for individual and business clients. Recently developed a full-stack Web-Based Online Ordering System using PHP, MySQL, HTML, CSS, and JavaScript for a real small business, demonstrating hands-on web development, database, and system testing skills. Skilled at communicating clearly with non-technical users, troubleshooting under pressure, and adapting quickly to new environments. Open to remote Technical Support, Helpdesk, and IT Support roles.

CORE COMPETENCIES

IT Support & Helpdesk: L1/L2 Support, Remote & On-Site Troubleshooting, Ticketing Systems, First Contact Resolution, End-User Support, Service Desk

Hardware & Repair: PC Assembly & Custom Builds, Component-Level Diagnostics, Hardware Repair & Upgrades, OS Installation, Laptop & Desktop Repair, Mobile Device Support

Web Development: PHP, MySQL, HTML, CSS, JavaScript, XAMPP, Web-Based System Development, Database Design & Management

Programming: Python (Basic), C++ (Basic), JavaScript (Basic), PHP

Basic Networking: TCP/IP, DNS, DHCP, VPN, Wi-Fi, Network Troubleshooting

Systems & Administration: Windows 10/11, Active Directory, User Account Management, Microsoft 365, Google Workspace, Endpoint Security, System Maintenance

Tools & Remote Support: TeamViewer, AnyDesk, PowerShell, CLI, Git, Remote Desktop, Backup Solutions, VS Code

Soft Skills: Technical Documentation, Customer Communication, Problem-Solving, Team Collaboration, Adaptability, Time Management

PROJECTS

Abundance Mini Grocery

Philippines

Full-Stack Web Development Project

Feb 2026

- Designed and developed a complete web-based online ordering system for a real small business using PHP, MySQL, HTML, CSS, and JavaScript, enabling customers to browse products, add items to a cart, and place orders online with pickup or delivery options.
- Built customer features including registration, login, cart, checkout, and order tracking, plus an admin dashboard for order, product, and customer management.
- Designed and implemented a relational MySQL database with 5 normalized tables covering users, products, orders, order items, and administrator data.
- Integrated Tawk.to live chat for customer-to-staff communication and developed an AI chatbot as part of the online ordering system.
- Deployed and tested the system end-to-end across 14 functional test cases, with all documented tests passing.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, XAMPP, VS Code, Tawk.to | Portfolio: 13hennessy.github.io/portfolio

WORK EXPERIENCE

Self-Employed / PC Build & Repair Services

Philippines

IT Support & Managed Services Technician

Mar 2024 – Present

- Manage the full client lifecycle for small business and residential clients, including setup, account/access configuration, troubleshooting, and ongoing support.
- Deliver remote and on-site IT support by troubleshooting hardware, software, Windows, and network connectivity issues, and installing and maintaining workstations, network devices, and backup solutions.
- Perform proactive system maintenance, software updates, endpoint security, technical documentation, and timely issue resolution.

Appen

Remote

Data Analyst / Audio Data Labeling

Jul 2023 – Nov 2023

- Transcribed and reviewed 100+ hours of audio data with high accuracy, demonstrating strong documentation discipline and quality assurance in a remote environment.
- Validated, corrected, and organized large datasets while meeting strict deadlines and quality benchmarks.
- Followed standard operating procedures and process-improvement guidelines to deliver consistent client-required outputs.

Self-Employed / PC Build & Repair Services

Philippines

Computer Repair Technician

Sep 2020 – Feb

2023

- Worked as a sole operator handling customer requirements, diagnosis, repair, configuration, and final delivery independently.
- Built and assembled 50+ custom PCs from scratch — 20 units for a small computer café and 30 units for personal use — selecting components based on client needs and budget.
- Performed hardware diagnostics, component-level repairs, upgrades, OS installation, and system configuration for desktops and laptops.

GadgetzBiz Repair Shop

Philippines

IT Support Specialist / Computer Technician

Jan 2016 – Oct 2016

- Performed L1/L2 diagnostics and repairs on desktops, laptops, and mobile devices, including component-level troubleshooting.
- Resolved network connectivity issues by configuring TCP/IP, DNS, and DHCP to restore stable connections for clients.
- Managed repair workflows using a manual ticketing system, ensuring accurate tracking of service history, inventory, and resolutions.

CityLink

Philippines

Computer Café Supervisor & Technician

Jul 2013 – Jan 2016

- Supervised daily operations of a computer café supporting 100+ users across 30+ workstations, acting as the primary point of contact for technical issues.
- Maintained near 100% system uptime by diagnosing and repairing hardware and software issues, combined with proactive troubleshooting and routine maintenance.
- Trained staff in basic troubleshooting procedures, improving overall team efficiency and service quality.

Zaltivar Telecom Services

Philippines

Outbound Sales Representative

Jan 2013 – Jun 2013

- Conducted outbound calls to prospective customers, delivered professional customer service, and identified eligibility for Maybank credit card products.
- Explained product information, resolved customer inquiries, and built rapport through effective communication and active listening.
- Documented customer interactions, followed established procedures, and consistently met quality and productivity expectations.
